

MAY WINNER

70 Red Buckets of Surprises!

“ When it comes to writing a testimonial about Carboline, sometimes it is just hard to find the right words. Carboline has recently developed a product (Phenoline Tankshield) that meets our needs of low temperature, fast return to service, 100% solids, non-plural that is very user friendly, especially on pitted steel. And it is competitively priced. Our folks are very happy with the ease of application. Then there is our sales and technical representative, Brian McHale. This is another circumstance where it is hard to find the right words. Brian has been in the industry with the same company for at least fifteen years and has worked with us consistently. Paint representatives come and go but Brian is always there. He always goes above and beyond.”
