

JULY WINNER

# 70 Red Buckets of Surprises!

“ I just wanted to pass along a note regarding your products and your Technical Sales Representative, Loren Taylor Shipman. We use Carboline Fireproofing Material exclusively at the Delek Refinery in Tyler, Texas where Apache has the Maintenance contract. The fireproofing we are doing has been an ongoing project and our customer has been extremely pleased with our application and the performance of your products. I have had the pleasure of working with Loren for a number of years and she has been great at providing me with whatever I needed, whenever I needed it. Loren has the technical competency to answer any question I come up with and provides the customer service we are looking for in everything from quotations to delivery. She is truly an asset to your company. ”
